

## Real Conversations. Real Change.

**Want to turn out new voters, influence undecideds,  
and protect progressive values?**

Deep Canvassing has been shown to be one of the most successful forms of both Get Out the Vote and persuasion. Instead of just providing information, we listen. By sharing personal stories in a non-judgmental way, we reach voters across divides.

**No experience? No problem.  
We've got you covered.**

You'll get full training and support  
before hitting your first doorstep.

## Available Sessions
